Moonbloom Labs

# What you get in the morning

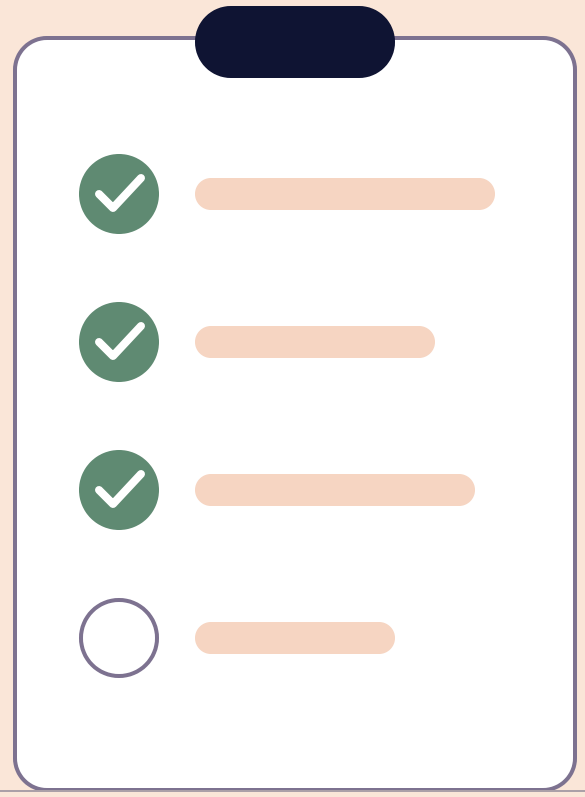

Everything you need to make a decision over your first coffee.

*Morning*

# A working prototype

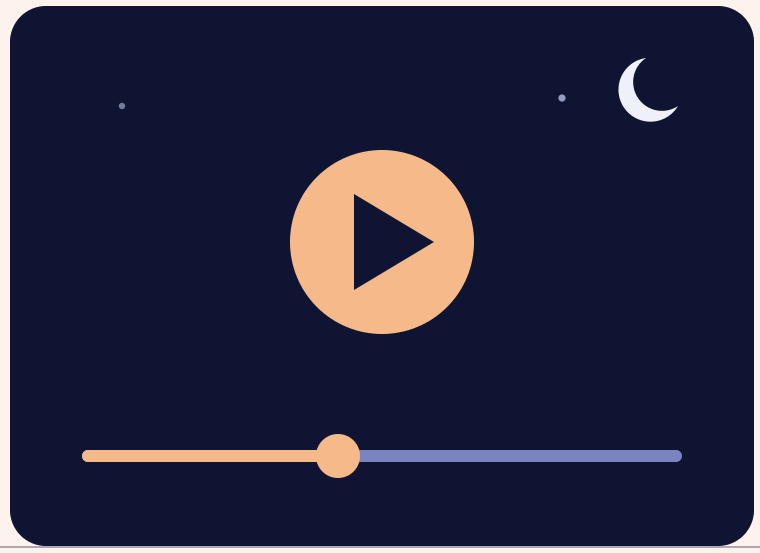

Something you can click through, call or try,
not a slide deck.

*Morning*

# Tests

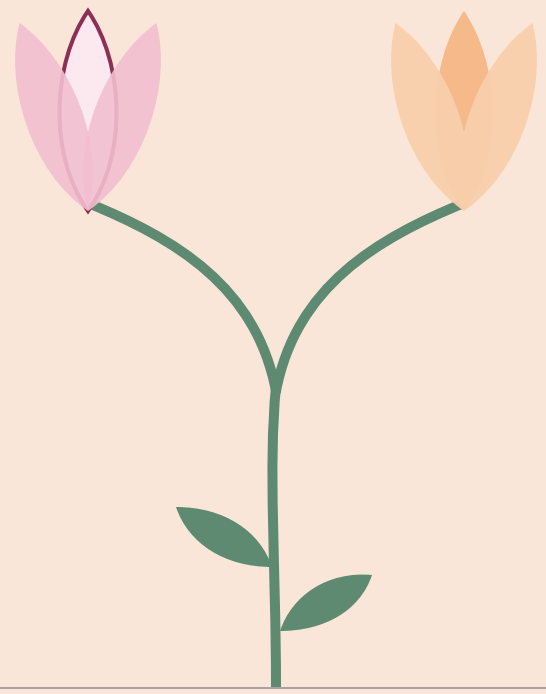

Automated tests that show what works and what was checked.

*Morning*

# A short demo

A walkthrough of what was built and how to try it yourself.

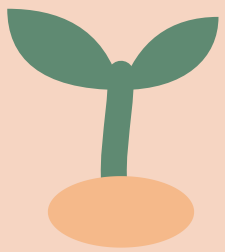

*Morning*

# Open decisions and questions

A short list of choices the agents should not make for you, ready for your answers.

What you get in the morning

# Have an idea for tonight?

Tell us about it. We'll reply to agree the scope and an evening to start.

A prototype, not a production system. We agree the scope in the evening so it fits one night.

Plant your idea
